www.exitcarbon.com

Exit Carbon extends the range of services offered to its customers, taking care of your Exit Carbon product **while the boat is resting during the winter season.**

Long Life Refit is the new winter promotion by Exit Carbon allowing the access to a refit at better commercial conditions, **to be ordered before 28.02.2021 in order to have it ready for the new season.** Your product will get back to the beauty and perfection of its first day. If you wish, it can be the right time for a change of look, to replace some parts, to add options and accessories.

-20%

A discount less 20% on the refit price list (coloring, refitting wheels for the gangways, etc.) and structural test

-10%

A discount less 10% for any desired upgrade (handrails, change of color, etc.)

+24

The extension of the warranty on the structure of the Exit Carbon product for 24 further months is included in the price of the refit (even if your product has exceeded the original warranty terms).

In the refit the substitution of all damaged small parts is included (screws, plastic parts, wheels, ropes)

Let's give you some examples:

Refit with Coating of a Venus/Libera 285 gangway: <i>price list € 730,00</i>	<i>promo Long Life Refit</i> →	€ 584,00 + Long Life 24
Refit with Coating of a Giotto ladder 5 steps: <i>price list € 940,00</i>	<i>promo Long Life Refit</i> →	€ 752,00 + Long Life 24
Refit with Coating of wheels 105-120: <i>price list 440,00</i>	<i>promo Long Life Refit</i> →	€ 352,00 + Long Life 24
Refit with Coating of 4 Helios carbon poles dia 60 <i>price list 200,00</i>	<i>promo Long Life Refit</i> →	€ 160,00 + Long Life 24

How does it work?

- 1** Send a photo of your product to info@exitcarbon.com asking for a quotation for the refit (if you would like only a new coating, a yacht name, the substitution of the wheels fittings...).
- 2** We will come back to you with a detailed quotation that you can confirm until 28.2.2021.
- 3** After the confirmation of the refit order you will receive some instructions about the delivery with our Courier.
- 4** Upon arrival of the item at Exit Carbon's premises, a structural integrity check of the piece will be carried out. We will then proceed with the refit.

Should the product show problems not previously visible, further refit interventions may be suggested to the customer, if Exit Carbon evaluates them necessary or useful for the proper functioning of the article, and an integration to the refit offer will be proposed. It is up to the customer to accept the updated proposal. In case of no answer, the product will be processed as per initial offer.

Your Exit Carbon product will be returned ready to be used for the next season (within the month of April 2021), refurbished and equipped with the extended warranty on the structure for a further 24 months.

Which product qualifies for this promotion?

All Exit Carbon products qualify for this promotion, both those purchased directly from Exit Carbon and those purchased through retailers or shipyards. Wheels, gangways, awning poles, swim ladders, tender fenders, light masts, of any size and... of any age.

Who can apply for the promotion?

All those who own Exit Carbon products can apply to this promotion at the same advantageous conditions.

When should I send the product for the refit?

The goods must arrive at Exit Carbon's premises by March 15th 2021. Consider that the package may need 10/15 days to be delivered from some less connected places.

What limits or conditions does the warranty extension have?

In order to let your product be sent to our premises we will send you a delivery voucher for the courier, giving you all the indications for the packaging and a labelling for the package. The package will be picked up by our courier and will travel insured. Unless otherwise indicated, the product will be delivered to the same address, always by courier and with insured goods. The shipping costs will be charged to you with the invoice for the refitting service.

Quali limiti o condizioni ha l'estensione di garanzia?

The Long Life warranty extension lasts 24 months from the date of return and concerns the structure of the product. It is subject to conditions (in particular, the product must be structurally intact when delivered to Exit Carbon, or the structural interventions suggested by Exit Carbon must be carried out).

Are there any further benefits?

Yes, your product will undergo an incoming and an outgoing test, which will guarantee your full satisfaction in using an exclusive Exit Carbon product just as if it had just been manufactured.
